to 31st December, 1933

PART II.

Forest Bibliography to 31st December, 1933.

PART II.

B. SILVICULTURE:

3. *Natural Reproduction.*

PERIODICALS	VOL.	PAGE	BRIEF PARTICULARS
1813 <i>Allg. F. & J. Ztg.</i>	19	81—96	Notes on systems and regeneration in high forests. <i>Feistmantel.</i>
1844 <i>Allg. F. & J. Ztg.</i>	20	89—90	Natural and artificial regeneration of high forests.
" " "	20	326—331	Notes on the natural regeneration of beech. <i>Pfifferling.</i>
1846 <i>Allg. F. & J. Ztg.</i>	22	446—453	Observations on natural regeneration of beech high forests. <i>Schwabe.</i>
1847 <i>Allg. F. & J. Ztg.</i>	23	230—232	Natural regeneration in beech high forests.
1850 <i>Allg. F. & J. Ztg.</i> <i>Krit. Bl. f. u. Jagdw.</i>	26 28.1	406—407 208—233	Importance of juniper in regeneration of oak. Regeneration felling of pine.
1851 <i>Allg. F. & J. Ztg.</i> <i>Oesterr. Viertel.</i>	27 1	471—473 17—35	Notes on the regeneration of beech. <i>Ruhm.</i> Notes on natural regeneration after clear felling. <i>Wesselly.</i>
1852 <i>Vereinsschr. F.-J. u. Naturh.</i>	12	45—46	Reproduction of spruce by natural layering. <i>Wesselly.</i>
1854 <i>Allg. F. & J. Ztg.</i>	30	441—451	Critical points in the regeneration of beech high forest.
1855 <i>Allg. F. & J. Ztg.</i> " " "	31 31	161—166 341—345	Observations on regeneration of broad-leaved trees. Note on reproduction of oak in group system. <i>Goering.</i>
1858 <i>Allg. F. & J. Ztg.</i>	34	358—361	Historical observations on the development of methods of regeneration in beech high forest.
1859 <i>Allg. F. & J. Ztg.</i>	35	79—80	Notes on the regeneration of oak in Spessart. <i>Schultze.</i>
1860 <i>Allg. F. & J. Ztg.</i> " " "	36 36	85—91 311—348	The application of selection, seedling-felling, and final cutting systems to forest regeneration. <i>Manteuffel.</i> Beech mast years and natural regeneration. <i>Ilrig.</i>
1862 <i>Rev. E. & F.</i>	1	65—67	Natural regeneration by group seeding fellings. <i>Lacordaire.</i>
1864 <i>Monatschr. f. & J. Thar. For. Jahrb.</i>	16	161—171 108—132	Regeneration of spruce in Bavaria. Financial importance and regeneration of beech in Saxon ranges. <i>Ruling.</i>
1867 <i>Allg. F. & J. Ztg.</i>	43	285—293	Natural or artificial reproduction in forests. <i>Lampe.</i>
1869 <i>Allg. F. & J. Ztg.</i>	45	201—205	Notes on natural regeneration.
1870 <i>Allg. F. & J. Ztg.</i> " " " " " " <i>Thar. For. Jahrb.</i>	46 46 46 20	93—97 319—321 380—382 33—45	Regeneration capacity of silver fir in Baden. <i>Vonhausen.</i> Regeneration of oak in Palatinate. Notes on duration of regeneration period. Observations on various regeneration methods in use in Saxony. <i>Manteuffel.</i>
	20	241—262	Notes on natural regeneration methods in Saxony. <i>Kuhn.</i>

FOREST BIBLIOGRAPHY TO 1933. PART II

PERIODICALS	VOL.	PAGE	BRIEF PARTICULARS
1871 Allg. F. u. J. Ztg.	47	215-217	Natural regeneration of crops by means of gap felling <i>Vonhausen.</i>
Monatschr. F. u. J.		491-410	Influence of late frost on regeneration of broad-leaved trees
1872 Rev. F. u. F.	11	304-365	Oak regeneration in high forest. <i>Portier.</i>
1873 Allg. F. u. J. Ztg.	49	1-10 Supp.	Natural regeneration of beech in high forest. <i>Kühn.</i>
Jahr. For. Jahrb.	23	1-17	Notes on practice in natural regeneration. <i>Rudolf.</i>
Vereinschr. F. u. Naturf.	53	18-21	Notes on natural regeneration of beech in Austria. <i>Soncha.</i>
1875 Jahr. For. Jahrb.	45	55-60	Normal management in regeneration areas. <i>Kraft.</i>
1876 Vereinschr. F. u. Naturf.	95	46-55	On natural seedling in Silesian forests. <i>Zeman.</i>
1877 Ind. For.	3	77-87	The natural reproduction of deciduous forests in India <i>Haden-Powell.</i>
Monatschr. F. u. J.	41	442-449	Notes on the future regeneration of <i>Alnus pedunculata</i> in Hilsau. <i>Black Forest Hepp.</i>
Rev. F. u. F.	16	225-235	Natural regeneration of spruce in the Alps. <i>Günther.</i>
Zeitschr. F. u. J.	9	60-64	Notes on oak regeneration in Vanhögung. <i>Wiederhold.</i>
" "	0	549-551	Notes on advice given with <i>Staubland.</i>
1878 Allg. F. u. J. Ztg.	54	41-45	The regeneration of pine by weeding felling in Brandenburg <i>Kienitz.</i>
Ind. For.	4	187	On coppicing power of certain trees in India.
Monatschr. F. u. J.	22	444-460	Regeneration of beech high forest in Swabia. <i>Siegl.</i>
Rev. F. u. F.	17	5-20	Oak regeneration in coppice. <i>Hérand.</i>
1879 Forst. Centralbl.	23	325-357	The regeneration and management of spruce mountain forests <i>Kadner.</i>
Vereinschr. F. u. Naturf.	108	23-153	On regeneration of forests in Bohemia
1880 Forst. Centralbl.	24	230	Final cutting and regeneration of forests. <i>Roth.</i> 20 pp.
1881 Allg. F. u. J. Ztg.	57	233	Winds which carry off the seed from spruce, pine and larch. <i>Forstauer.</i>
Forst. Centralbl.	25	375-376	Notes on the regeneration of <i>Alnus pedunculata</i> .
Zeitschr. F. u. J.	13	67-70	The killing of willows by girdling. <i>Danielshann.</i>
1882 Allg. F. u. J. Ztg.	58	351-355	Methods of aiding natural regeneration of oak in forest hollows by nurse and auxiliary species: the best age at which to underplant oak saplings. <i>Böggger.</i>
Ind. For.	8	158-159	Effects of forest fires on oak reproduction
1883 Allg. F. u. J. Ztg.	59	241-246	Reproduction methods in Bavarian forests. <i>Wagner.</i>
" "	59	132	Notes on influence of reproduction period on durability of seed
Ind. For.	9	338-359	Recent nature of mixed forest in Assam. <i>Pearl.</i>
1885 Forst. Centralbl.	29	151-154	Regeneration of high forests on mountain slopes. <i>Roth.</i>
" " "	29	105-108	Notes on the present position of natural regeneration. <i>Ulrich.</i>
Rev. F. u. F.	21	210-216	Regeneration in the Alps. <i>Schwarz.</i>
" "	24	350-354	Regeneration of coniferous forests in the Alps. <i>Lamotte.</i>
1886 Allg. F. u. J. Ztg.	62	142-144	Observations on natural reproduction of silver fir. <i>Textell et al.</i>
Ind. For.	12	15-18	Light grazing in forests in the stage of reproduction in India
" "	12	99	Light grazing and its effect on reproduction in India <i>Darney et al.</i> 16 pp.
Zeitschr. F. u. J.	12	797-801	Notes on relation to natural regeneration of seed in India
" "	18	609-627	Theory and practice of regeneration of oak with larch. <i>Heyer.</i>

PERIODICALS	VOL.	PAGE	BRIEF PARTICULARS
1887			
<i>Allg. F. & J. Ztg.</i>	63	37—40	The significance and treatment of advance growth. <i>Pahl.</i>
" " "	63	236—238	Observations on the regeneration of <i>Abies</i> and the treatment of advance growth. <i>Pahl.</i>
" " "	63	312—315	Notes on the regeneration of <i>Abies pectinata</i> in the Jura. <i>Wagenau.</i>
<i>Forstw. Centralbl.</i>	31	17—30	Observations on regeneration of beech high forests. <i>Heinemann.</i>
<i>Ind. For.</i>	13	224—225	Clearing contour bands to aid regeneration in deodar forests in Punjab.
" " "	13	577—578	Note on reproduction of bamboos.
<i>Trans. Scot. Arb. Soc.</i>	11	36—48	Natural reproduction of forests. <i>M'Lean.</i>
<i>Zeitschr. F. & J.</i>	19	5—9	When is larch seed shed? <i>Weise.</i>
" " "	19	153—157	Note on regeneration in oak stands. <i>Geppert.</i>
" " "	19	233—241	The regeneration of spruce and silver fir in the Silesian mountains. <i>Arndt.</i>
1888			
<i>Allg. F. & J. Ztg.</i>	64	74	Notes on natural reproduction of oak and beech in Germany.
" " "	64	141—143	Discussion as to best methods of thinning and reproduction in conifer crops at heights above 900 metres. <i>Ganter et al.</i>
1889			
<i>Zeitschr. F. & J.</i>	21	449—456	Advance regeneration of oak by corridor and gap felling. <i>Heyder.</i>
1890			
<i>Forstw. Centralbl.</i>	34	55—57	Influence of the method of regeneration on branch formation in spruce stands. <i>Wagener.</i>
<i>Zeitschr. F. & J.</i>	22	267—274	Notes on regeneration in gap fellings. <i>Volmar.</i>
1891			
<i>Allg. F. & J. Ztg.</i>	67	251—252	Observations on natural reproduction of pine crops. <i>Alvensleben.</i>
<i>Forstw. Centralbl.</i>	35	385—426	History of natural regeneration in shelterwoods. <i>Hausrath.</i>
<i>Zeitschr. F. & J.</i>	23	374—377	The natural regeneration of beech in seedling stages. <i>Priester.</i>
1892			
<i>Allg. F. & J. Ztg.</i>	68	145—148	Relations between the regeneration of <i>Abies</i> and forest management in Upper Alsace. <i>Kautsch.</i>
" " "	68	148—159	Observations on oak bark coppices.
<i>Ind. For.</i>	18	305—306	Reproduction by extraction of stumps.
<i>Zeitschr. F. & J.</i>	24	435—465	Beech regeneration in Schleswig-Holstein. <i>Hahn.</i>
" " "	24	628—634	Notes on natural regeneration of beech. <i>Kraft.</i>
1893			
<i>Allg. F. & J. Ztg.</i>	69	24—27	Natural regeneration of oak. <i>Osterheld.</i>
" " "	69	358—359	Reproduction and conversion of pine crops. <i>Fenner et al.</i>
" " "	69	361—362	Discussion on filling gaps in natural reproduction of beech. <i>Pohling et al.</i>
<i>Ind. For.</i>	19	131	Dispersal of seed by birds.
" " "	19	251—252	Land reforested through intervention of prickly pear. <i>Lushington.</i>
<i>Trans. Scot. Arb. Soc.</i>	13	63—82	Natural regeneration of woods. <i>Somerville.</i>
<i>Zeitschr. F. & J.</i>	25	108—112	The regeneration of beech in Schleswig-Holstein. <i>Imeis.</i>
" " "	25	324—348	Notes on the practice of regeneration. <i>Kraft.</i>
" " "	25	427—433	Beech regeneration in Schleswig-Holstein. <i>Wulff.</i>
" " "	25	593—601	The regeneration of oak in the Palatinate. <i>Keiper.</i>
1894			
<i>Allg. F. & J. Ztg.</i>	70	267—268	Method of reproduction to be adopted on boundary between beech and spruce. <i>Grundner.</i>
" " "	70	321—323	Regeneration of beech in Schleswig-Holstein. <i>Imeis.</i>
<i>Ind. For.</i>	20	285—287	Failure of oak natural reproduction in Coimbatore. <i>Porter.</i>
<i>Rev. E. & F.</i>	33	488—497	Reproduction in high forest. <i>Broilliard.</i>
1895			
<i>Allg. F. & J. Ztg.</i>	71	30—32	Discussion on principles of reproduction in mixed silver-fir and beech crops. <i>Pahl et al.</i>
" " "	71	140—141	Discussion on reproduction of oak in diluvial soils. <i>Urff et al.</i>
<i>Forstl. Naturw. Zeit.</i>	1	88—96	Observations on spontaneous afforestation in Java. <i>Kporders.</i>
<i>Ind. For.</i>	21	417—419	Influence of season of felling on production of stool-shoots in oak. <i>Bartel and Hartig.</i>
" " "	21	App. 3	Experimental regeneration fellings in beech forests in Altenbusch and Giessen. <i>Reuther.</i> 7 pp.
<i>Rev. E. & F.</i>	34	349—352	Gradual regeneration in high forest.

FORLST BIBLIOGRAPHY TO 1933: PART II

PERIODICALS	VOL.	PAGE	BRIEF PARTICULARS
1896			
<i>Allg. F. & J. Ztg.</i>	72	32—34	The natural regeneration and economic maturity of oak.
" " "	72	309—311	The regeneration of oak in belts. <i>Reiss.</i>
<i>Ind. For.</i>	22	App	Natural reproduction in Goalpara Div., Assam. <i>Campbell.</i>
" " "	"	20—21	
<i>Zeitschr. F. & J.</i>	28	2—31	On the group system of natural regeneration. <i>Moritzfeldt.</i>
" " "	28	112—117	Regeneration of pine under shelter wood. <i>Hoffmann.</i>
" " "	28	378—381	Pine regeneration notes. <i>Hoffmann.</i>
" " "	28	670—679	Natural regeneration of pine stands. <i>Borggreve.</i>
1897			
<i>Allg. F. & J. Ztg.</i>	73	29—31	Discussion of question of natural reproduction in mixed crops. <i>Gutmann et al.</i>
<i>Forstw. Centralbl.</i>	41	11—256	Regeneration of beech and oak in Denmark and Germany. <i>Furst.</i>
<i>Ind. For.</i>	23	245—256	Regeneration, shade, cover and exposure in the forest.
